WARNING:
READ BEFORE USING YOUR PLAYSTATION® 2
COMPUTER ENTERTAINMENT SYSTEM.
A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:
Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

Use of Unauthorized Product:
The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or MEMORY CARD slots.

HANDLING YOUR PLAYSTATION 2 FORMAT DISC:
- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it, or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this CD clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

This product has been rated by the Entertainment Software Rating Board. For information about the ESRB rating, or to comment about the appropriateness of the rating, please contact the ESRB at 1-800-771-3772.

GETTING STARTED

PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM

1. Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual.
2. Make sure the MAIN POWER switch (located at the back of the console) is turned on.
3. Press the RESET button. When the power indicator lights up, press the open button and the disc tray will open.
4. Place the Freekstyle™ disc on the disc tray with the label side facing up. Press the open button again and the disc tray will close.
5. Attach game controllers and other peripherals, as appropriate.
6. Follow on-screen instructions and refer to this manual for information on using the software.

EA TIP: During a trick, lean your rider back in an attempt to get bigger air. Lean forward to push the bike down toward the ground and speed your descent.

TRICKS: "Big-air it Freeky style" with some mind-blowin', adrenaline pumpin' tricks. Just press any combination of trick buttons (L1 button, L2 button, R1 button, or R2 button) while flyin' high over a jump and then level her out for a smooth landing. For more information, ⇒ Tricks on p. 14.

INTRODUCTION
It's time to put your fear in check—Freekstyle, the go-for-broke motocross experience from the world of EA SPORTS BIG™ is here. Bust out of the gate, go full throttle and pull off the sickest stunts in the most insane, over-the-top worlds. The Freeks have been unleashed.

GAME FEATURES
- Say 'see-ya' to the barriers and constraints of real-life tracks and venues and say 'hello' to the EA SPORTS BIG worlds of Freekstyle, inspired by the extreme lifestyle of motoX racing.
- Nine different venues challenge riders to take on some of the most outrageous freestyle terrain.
- Over 100 tricks including the McMetz, Cordova, Mulisha Air, Superfly, Executioner, and the 360—score big with them or better yet, combine 'em for bonus points.
- Choose from eight different riders with their own unique attitudes and styles including Mike Metzger—the "Godfather of Freestyle," Brian Deegan—the leader of the Metal Mulisha, Leeann Tweeden, Stefy Bau, Clifford "The Flyn Hawaiian" Adoptante, Jessica Patterson, "Mad" Mike Jones and Greg "Albee" Albertyn.
- Fly high and take names in Circuit, Single Race, Freestyle, and Freeride game modes.
- An innovative scoring system challenges the most fearless dirt demon to hold that Lazy Boy for just one more second.
- Topped off with a Freekstylan' soundtrack that brings out the daredevil in anyone who picks up the controller.

FOR MORE INFO about this and other titles, visit EA SPORTS BIG™ on the web at www.easportsbig.com.
SETTING UP THE GAME

The first thing to remember when racing in Freestyle is that second is not an option. But before you put yourself to the test you must set the stage from the Main menu.

To access the Main menu, press the START button at the title screen.

MAIN MENU

It all begins here. From the Main menu, select your game mode: Circuit, Single Race, Freestyle, and Freeride. You can also access the Options menu or check out the Freestyle Record Book from here.

Join the Freestyle Circuit and earn some respect
Show off your sick tricks and get your name in the record book
View the Freestyle Record Books—is your name on the list?

Be bold and take on the field in a Single Player Race
Venture the course and ride on your own in Freeride mode
Set up your game options and more, p. 26

NOTE: Default options are listed in bold in this manual.

STARTING A RACE IN CIRCUIT MODE

Join the Freestyle racing Circuit and race against the baddest riders for dirt superiority. Win big, and you get to unlock tracks, bikes, and more. Losing is not an option.

CIRCUIT MODE FACTS

❖ Racing in Circuit mode is the only way to unlock tracks. Are you good enough for the big time?
❖ There are three segments of Circuit mode—Racing, Freestyle, and Freeride. Your first test begins on Monumental Motoplex.
❖ Racing—In order to progress through Freestyle’s Circuit and unlock other tracks, you need to place in the top three in the first 2 Motos. In the Main Event, you must place first to progress to the next track. Once you’ve mastered all 6 tracks, the Crash Pad is unlocked and your first Freestyle competition awaits you.
❖ Freestyle—Here you ride in a 3-minute Freestyle competition and your goal is to accumulate the minimum point total set for the track by pulling off enough sick tricks. However, time plays a major factor. Once you accomplish the goal, you advance to Freestyle racing.
❖ Freeride—In Freestyle racing, it’s back to the racetrack for the final 6 Circuit events. In this stage, there’s only one event per track, but you must finish in first place plus achieve the minimum amount of set trick points to move on. It won’t be easy.

NOTE: If you can win Freestyle, you have proven yourself to be a true Freek. As your reward, you receive the ultimate freestyle level, The Burbs.
Unlock bikes by winning the Main Events on Monumental Motoplex, Burn It Up and Let It Ride during the Circuit races. Every new bike comes with new tricks and tweaks.

After you unlock new riders, bikes, gear, and tracks, they become available from the Select Rider (p. 9), Select Bike (p. 11), and Select Venue (p. 12) screens when setting up a new game in any game mode.

To start a Circuit mode race:
1. From the Main menu, highlight CIRCUIT and press the X button. The Choose User ID screen appears.
2. Highlight NEW to create a User ID for Player 1 and press the X button. The name entry screen appears.
3. Begin creating a name (8 letters maximum) for your new User ID by pressing the D-Button or \ to highlight a letter. Press the X button to accept. Once a name is created, select ENTER to finalize the name. The Select Rider screen appears (for more information, Select Rider screen on p. 9).

SELECT RIDER SCREEN
Race with style as one of the most dominating riders on two wheels. Freekstyle offers eight different riders for you to choose from—they will all do anything it takes to win.

Current rider
Press the D-Button to scroll through the other riders
Press the X button to select

NOTE: When you first play Freekstyle only Metz, Deegan, Leann, and Stefy are available—the rest of the Freeks are grayed out. If a locked rider confronts you before a Circuit race, show 'em up by taking the checkered flag. Win and they're now yours for the taking.

NOTE: Just like some of the riders in the game, their gear has to be unlocked as well. Complete all of the tricks in your trick book to earn one new set of gear. Complete 20 combos from the trick book to unlock another set.

From the Select Rider screen, press the D-Button to highlight the character you wish to choose. Press the X button and the Select Bike screen appears (for more information, Select Bike Screen on p. 11).
RIDER ATTRIBUTES

Every rider has five attributes—Speed, Boost, Control, Jumping and Landing. Each rider has different default values. Each bike adds to these values. Plus, completing Circuit mode events can earn you additional points that you can allocate to these categories.

SPEED
The more speed your bike has, the faster it goes on the track.

BOOST
Boost gives you added acceleration.

CONTROL
If your bike has good control, you'll have better traction on the track.

JUMPING
Excellent jumping skills can increase your ability to get bigger air.

LANDING
The ability to land your jumps and save a rough landing depends on how much landing skill you have.

UPGRADING YOUR RIDER—As you make your way through each level of the Circuit, you earn points along the way. Use these points to upgrade your character in any of the Speed, Boost, Control, Jumping, or Landing categories.

Don't think that becoming the "perfect" rider will be so easy. Points are added quickly at first but the closer you get to maxing out a category, the more points you'll need to increase it. So spread those remaining points to other categories or save them for later.

Any additional points that you have left over will be saved for later. However, once you max out the 'available' bar, you won't be able to earn any more points.

SELECT BIKE SCREEN

Choose your Freestyle beast.

Selected bike
Press the * button to select

Bike attributes
Press the D-Button ↔ to scroll through the different bikes

NOTE: At first, only one bike is available for all available riders. Win races in Circuit mode to unlock the rest. Keep in mind that new bikes come with new tricks.

Press the D-Button ↔ to highlight your wheels and press the * button to continue. The Select Venue screen appears (for more information, Select Venue Screen on p. 12).

NOTE: On the attributes screen the blue chain represents rider attributes while the red chain represents the bike.
SELECT VENUE SCREEN

There's a wide variety of challenging terrain on a number of different courses. It's up to you to conquer each and every one of them.

SELECTED TRACK

Length: 1,500 meters
Average Race Time: 1 min 30 sec
Highest Jump: 150 feet

Press the button to select
Press the button to view records

NOTE: If you haven't unlocked any new tracks, only Monumental Motoplex and Crust Belt are available in Single Race and Freeride. Feel The Panic is available in Freestyle mode. You can only race on the other "locked" tracks by unlocking them in Circuit mode.

Press the button to begin the race.
For more race information, On the Track on p. 13.

ON THE TRACK

Be a daredevil.

GAME SCREEN

The game begins with all of the riders lined up at the starting gate. When the starting lights go green, the game starts and the mayhem begins.

Current position/
Number of players in the race

Current speed

SCORING

In Freestyle, the goal is to get as many points as possible. Add to your overall trick point total by pulling off wicked stunts during the race. For more information on tricks, on p. 14.

SCORING FACTS

The amount of points that you are rewarded depends on each trick. The more difficult the trick, the more points you receive. Hold a trick as long as you can for maximum points.

Pulling combos gets you awesome multipliers. Two combined tricks in a single jump doubles your point total for a jump while three tricks in one jump triples the score.

Pulling a variety of different tricks scores you a Medley Bonus, so go for broke.

Holding a trick mid-air until the last second gets you a Landing Bonus, but you must land smoothly.

Additional points can also be earned for hitting and breaking objects scattered throughout the track including glass and crates. Knocking over gnomes earns points as well.
Speed kills. Setting fast laps during a race gives a nice, phat Lap Bonus so be sure to keep up the pace.

**EA Tip:** Certain combos are worth extra. Check out the trick book to see how you can earn some extra points.

**TRICKS**

Bust out with some awe-inspiring tricks during the race. Use these high-flyin' aerial assaults to send your score soaring.

**To perform a trick:**
1. Hit a jump and get some serious air underneath you.
2. While flyin' high, press any combination of trick buttons to perform a mid-air stunt.
3. As your bike drops closer to the ground, release all buttons and level out for a smooth landing—if you can.
4. If you’re good enough to pull it off, Freestyle allows you to perform two or more tricks on the same jump. Earn multipliers by doing combos.

**BASIC TRICK COMMANDS**

<table>
<thead>
<tr>
<th>Trick</th>
<th>Button Combination</th>
</tr>
</thead>
<tbody>
<tr>
<td>No Hander</td>
<td>L1 button</td>
</tr>
<tr>
<td>Bar Hop</td>
<td>L2 button</td>
</tr>
<tr>
<td>No Footer</td>
<td>R1 button</td>
</tr>
<tr>
<td>Double Can</td>
<td>R2 button</td>
</tr>
<tr>
<td>Cordova</td>
<td>L1 button + L2 button</td>
</tr>
<tr>
<td>Nac Nac</td>
<td>L1 button + R1 button</td>
</tr>
<tr>
<td>Heart Attack</td>
<td>L1 button + R2 button</td>
</tr>
<tr>
<td>Superman</td>
<td>L2 button + R1 button</td>
</tr>
<tr>
<td>Cliffhanger</td>
<td>L2 button + R2 button</td>
</tr>
<tr>
<td>Seat Grab</td>
<td>R1 button + R2 button</td>
</tr>
</tbody>
</table>

- Tricks can be tweaked in mid-air by pressing the button or pressing the R3 button with any trick command (except the L1 button + L2 button + R1 button + R2 button super sick trick combination). The longer you hold a trick, the more it’s worth.
- Every combo earns you a multiplier, but certain bonus combos will give you bonus points. Try all of the combos to find the high scorers.
- The 4-button super sick trick can only be pulled when your Freekout meter is full.
- Want new tricks? Then earn new bikes and new riders.
- To check out how many tricks and bonus combos you can do, press the button on the Select Rider screen to view your Trick Book.

**Note:** Tricks vary amongst riders and bikes. Unlock all of the riders and bikes to check out the 100+ crazy tricks in Freestyle.
TRICK BOOK
View the Trick Book and see what stunts—mad tricks and sweet combos—that your rider can pull off.

- Every time you successfully perform a trick or combo, it is marked in your trick book. Filling up your trick and combo books will unlock new gear and codes.
- Press the button from the Select Rider screen to access the Trick Book. Press the D-Button to view the tricks and combo screens.

BOOST
Kick it into high gear with boost—a quick burst of acceleration.

BOOST FACTS
- Your Boost Meter rises with every acrobatic trick you pull off. The more your Boost Meter is filled, the more boost you have stored.
- The bigger the trick points, the quicker the boost rises to the top of the Boost Meter. Degree of difficulty and pulling combos are the keys.
- Press the button or press the R3 button to activate the boost at any point during the race. You can use the boost at any time during the race—even if the meter is not completely full.
- Use boost to help get distance over big jumps—be sure to boost before you takeoff.

FREEKOUT!
Pull off enough tricks and your Freekout Meter builds. Once the meter fills, hold on for the Freekout ride of your life.

FREEKOUT FACTS
- While every trick that you pull off adds to the Freekout Meter, crashing reduces it.
- Once the Freekout Meter is maxed out, you have a limited amount of time to pull the four button super sick trick and Freekout.
- If you're skilled enough to land safely, hit Boost for a super burst of Freeky speed. Your Freekout time is based on how good your original trick was (you can pull combos, along with the super sick trick)
- While you are Freeking out, you can extend your Freekout time by continuing to pull sick tricks. See if you can Freekout big enough to get into the Record Book.

END OF RACE
- At the end of the race, you can watch the replay in its entirety, view your race stats and records, restart a race, quit and return to the Main menu, or continue on to the next round if you qualified (Circuit mode).
- Press the L1 button during a replay to view the action in slow motion. Press the START button to bring up the Pause menu.
PAUSE MENU

If the action gets too intense, take a break and pause the game.

To pause the action during gameplay, press the START button. The game freezes and the Pause menu appears.

CONTINUE
Continue racing in the current event.

AUDIO OPTIONS
Adjust the volume of the game's audio components—effects volume, engine volume, music volume, voice volume and announcer commentary—or change your sound mode from STEREO to DOLBY PRO LOGIC II or MONO.

CAMERA
Set your camera angle to NORMAL, FOLLOW, or FAR.

VIBRATION
Set the vibration mode on the controller to NORMAL, LOW, or OFF.

HUD
Set the HUD (Heads Up Display) for all your gauges to FULL, PARTIAL, MINIMAL, SPEED ONLY, or OFF.

RESTART
Start the race over and reset at the starting gate.

EXIT
Leave the track and call it a day.

OTHER GAME MODES

Raise the bar by challenging yourself in another game mode.

SINGLE RACE

One or two players can compete in a Single Race on any unlocked course. Here's your chance to write your name in the Record Book.

NOTE: You can't unlock any tracks or bikes in Single Race mode. However, items that were previously unlocked in Circuit mode are available for you to use.

DEGREE OF DIFFICULTY: Highlight AMATEUR for the easiest level, ROOKIE if you're ready for a moderate level, PRO if your game is advanced or FREEK if you want to hang with the big dogs.

ONE PLAYER

Take on the field in a race, or challenge them all in Freestyle mode.

RACE

With a Single Player race, you don't have the pressure of Circuit mode—it's just a quick race for fun.

To start a Single Player Race:
1. From the Main menu, highlight SINGLE RACE and press the button. The One Player/Two Player screen appears (when two controllers are plugged in).
2. Highlight One Player and press the button. The select race type screen appears.
3. Highlight Race and press the button. The Difficulty menu appears.
4. Highlight the difficulty level (> above) and press the button to continue.
5. After selecting a User ID, follow all the steps in Starting a Race in Circuit Mode (> p. 7) beginning with Select Rider screen (> p. 9) and then get ready for the race.
FREETYLE
If you want to win here, you have to finish in first place and hit your goal of total points before the final lap.

To start a Single Player Freetyle Race:
- Start a Single Player Freetyle race as you would a Single Player Race, except highlight FREETYLE instead of RACE from the select race type screen.

TWO PLAYERS
Two players race Head To Head or battle it out in Countdown mode.

HEAD TO HEAD
Two riders ride it with one goal in mind—make it to the finish line first.

To start a Two Player Head To Head Race:
1. From the Main menu, highlight SINGLE RACE and press the $ button. The One Player/Two Player screen appears (when two controllers are plugged in).
2. Highlight TWO PLAYERS and press the $ button. The select race type screen appears.
3. Highlight HEAD TO HEAD and press the $ button. The User ID screen appears.
4. Select a User ID for Player 1 and press the $ button. Select a User ID for Player 2 and press the $ button again.
5. Follow all the steps in Starting a Race in Circuit Mode (► p. 7) beginning with Select Rider screen (► p. 9) and then get ready for the race.

NOTE: In a Multi-Player race, the game screen is split in two halves. Player 1 is on the left side of the split screen, Player 2 on the right.

NOTE: Tricks performed in a 2 player Race will not be added to your Trick Book.

COUNTDOWN
The rules are simple in Countdown mode. When the gate drops, your points start down a fast path to zero. In order to keep your points from bottoming out, bust out with some tricks and get good lap bonuses. The first rider to hit zero, loses.

- Every time you pull a combo (two or more tricks in a single jump), not only do you get additional points, but your opponent loses the same amount of points as well.

- Start a Countdown race as you would a Head To Head Race, except highlight COUNTDOWN instead of HEAD TO HEAD from the select race type screen.
**FREESTYLE**
Show off your mad riding skills by pulling sick tricks in Freestyle mode. Try to rack up as many points as you can in the allotted time and shatter the record book.

**NOTE:** Just like Single Race mode, you can't unlock any venues or bikes in Freestyle mode. However, items that were previously unlocked in Circuit mode are available.

**ONE PLAYER**
In Freestyle mode, it's simply a 3-minute round to score all the points you can. Here's where you can master the art of Freestyle without the distraction of racing. You can also practice your tricks while discovering new bonus combos.

**To start a 1 Player Freestyle:**
1. From the Main menu, highlight FREESTYLE and press the X button. The Choose User ID screen appears.
2. After selecting a User ID, follow all the steps in Starting a Race in Circuit Mode (p. 7) beginning with the Select Rider screen (p. 9) and then get ready to Freestyle.

**TWO PLAYER**
In Two Player Freestyle mode you can race Head To Head, play Tag, or ride in the King of Pave mode.

**HEAD TO HEAD**
Race Head To Head in a 3-minute round—the one with the highest score wins.

**To start a Two Player Head To Head Race:**
1. From the Main menu, highlight Freestyle and press the X button. The Player Select screen appears (this screen only appears when two controllers are plugged in).
2. Highlight TWO PLAYERS and press the X button. The select race type screen appears. Highlight HEAD TO HEAD and press the X button. The User ID screen appears.
3. Select a User ID for both Player 1 and Player 2 and then follow all the steps in Starting a Race in Circuit Mode (p. 7) beginning with the Select Rider screen (p. 9).

**TAG**
The track is littered with blocks and it's up to you to nail them. Each time you hit a block, it turns a color—red for Player 1, blue for Player 2. However, smack a block that your opponent has already tagged and you steal it away. Whoever owns the most blocks when time runs out is the winner.

Start a Tag race as you would a Head To Head Race, except highlight TAG instead of HEAD TO HEAD from the select race type screen.
**KING OF PANE**

Can you Feel the Pane? Well you should because every time you jump through a pane of glass, you tag it with your color. Jump through a pane already marked by your opponent and you steal it away. Whoever has the most panes of glass tagged with their color at the end, wins.

Start a King of Pane race as you would a Head To Head Race, except highlight KING OF PANE instead of HEAD TO HEAD from the Select Race Type screen.

**FREERIDE**

Get up to speed with a few practice runs. There are no other competitors—the course is yours to own.

**Benefits of a Freeride:**

- Instead of trading ugly insults with the other riders on the track, you have the course all to yourself.
- Since time is not a factor you can explore the track to find shortcuts and take your time mastering sweet jumps.
- Practice your tricks and turns—or whatever you need work on. Here's where you learn the fundamentals as you're getting ready for the real thing.
- Write your name in the Record Book by setting fast laps.

**To start a Freeride:**

1. From the Main menu, highlight FREERIDE and press the × button. The Choose User ID screen appears.
2. Follow all the steps in Starting a Race in Circuit Mode (p. 7) beginning with the Select Rider screen (p. 9) and then hit the track for a Freeride.

**RECORD BOOK**

Put your name in the Record Book by setting the bar in Circuit, Single Race, Freestyle, and Freeride game modes.

**RECORDS**

View the list of all game records for all courses in a number of different categories.

To view the different courses, or to scroll through the different categories, press the D-Button ↔.

**USER ID'S**

View individual records and other personal bests for User ID's.

**RESET RECORDS**

Reset all game records.
OPTIONS
Modify your game settings to fit your racing style.

LOAD AND SAVE
For more information, ➤ Saving and Loading on p. 28.

ENTER CODES
If you're good or, better yet, if you're great, Codes will mean something to you.
Once you earn a code from your time spent on the track, put it to play. From the Codes screen, enter in your code. The code's effect is implemented into the game.

REMOVE USER ID
Delete a created User ID from your memory card (8MB) (for PlayStation™2).

MERGE USER ID'S
Freekstyle can use up to 20 User ID's. This process allows you to merge multiple User ID's into one save.

To Merge User ID's:
1. Load any saved User ID from a memory card into the game (➤ Saving and Loading on p. 28 for more information).
2. Remove the current memory card from MEMORY CARD slot 1 and insert a second memory card into MEMORY CARD slot 1.
3. Go to the Options menu (from the main menu) and press the ✿ button.
4. Highlight Merge USER ID'S and press the ✿ button.
5. All Freekstyle User ID's currently loaded and all User ID's currently saved to the memory card in MEMORY CARD slot 1 will merge as one save file.

NOTE: Freekstyle does not support MEMORY CARD slot 2. Merging is the only way to use User ID's from 2 separate memory cards.

NOTE: The next time you save after a merger you will be saving all of the newly merged User ID's to the memory card currently in MEMORY CARD slot 1.

NOTE: Freekstyle can only support 20 User ID's. Any files over that amount will not be merged.

NOTE: If your second memory card has a User ID with the same name as a User ID already loaded into memory, the new one will not be merged.

CREDITS
See who put the "Freek" in Freekstyle.
SAVING AND LOADING

LOAD GAME/OPTIONS
Load a game and options settings from a memory card.

To load a game and option settings:
1. From the Main menu, highlight OPTIONS and press the X button. The Options screen appears.
2. Highlight LOAD AND SAVE and press the X button. The Load and Save screen appears.
3. Highlight Load and press the X button. The previously saved option settings are loaded and the game picks up where you left off.

**NOTE:** *Freekstyle* autoloads saved data when you turn on your PlayStation 2 console.

SAVE GAME/OPTIONS
Save a game and your option settings to a memory card.

To save a game and options:
1. From the Main menu, highlight OPTIONS and press the X button. The Options screen appears.
2. Highlight Load AND SAVE and press the X button. The Load and Save screen appears.
3. Highlight SAVE and press the X button. The current game progress and option settings are saved to your memory card.

**NOTE:** Loading and saving applies to game information and game options as well.

LIMITED 90-DAY WARRANTY

ELECTRONIC ARTS LIMITED WARRANTY

Electronic Arts warrants to the original purchaser of this product that the recording medium on which the software program(s) are recorded (the "Recording Medium") and the documentation that is included with this product (the "Manual") are free from defects in materials and workmanship for a period of 90 days from the date of purchase. If the Recording Medium or the Manual is found to be defective within 90 days from the date of purchase, Electronic Arts agrees to replace the Recording Medium or Manual free of charge upon receipt of the Recording Medium or Manual at its service center, postage paid, with proof of purchase. This warranty is limited to the Recording Medium containing the software program and the Manual that were originally provided by Electronic Arts. This warranty shall not be applicable and shall be void if, in the judgment of Electronic Arts, the defect has arisen through abuse, mistreatment or neglect.

This limited warranty is in lieu of all other warranties, whether oral or written, express or implied, including any warranty of merchantability or fitness for a particular purpose, and no other representation of any nature shall be binding on or obligate Electronic Arts. If any such warranties are incapable of exclusion, then such warranties applicable to this product, including implied warranties of merchantability and fitness for a particular purpose, are limited to the 90-day period described above. In no event will Electronic Arts be liable for any special, incidental, or consequential damages resulting from possession, use or malfunction of this Electronic Arts product, including damage to property, and to the extent permitted by law, damages for personal injury, even if Electronic Arts has been advised of the possibility of such damages. Some states do not allow limitation as to how long an implied warranty lasts or limits or excludes or limits of incidental or consequential damages so the above limitations and/or exclusion of liability may not apply to you. In such jurisdictions, the Electronic Arts' liability shall be limited to the fullest extent permitted by law. This warranty gives you specific rights. You may also have other rights that vary from state to state.

RETURNS WITHIN THE 90-DAY WARRANTY PERIOD

Please return the product along with (1) a copy of the original sales receipt, showing the date of purchase, (2) a brief description of the difficulty you are experiencing and (3) your name, address and phone number to the address below and Electronic Arts will mail a replacement Recording Medium and/or Manual to you. If the product was damaged through misuse or accident, this 90-day warranty is rendered void and you will need to follow the instructions for returns after the 90-day warranty period. We strongly recommend that you send your product using a traceable delivery method. Electronic Arts is not responsible for products not in its possession.

RETURNS AFTER THE 90-DAY WARRANTY PERIOD

If the defect in the Recording Medium or Manual resulted from abuse, mistreatment or neglect, or if the Recording Medium or Manual is found to be defective after 90 days from the date of purchase, please return the product along with (1) a check or money order for $15.00 made payable to Electronic Arts, (2) a brief description of the difficulty you are experiencing and (3) your name, address and phone number to the address below, and Electronic Arts will mail a replacement Recording Medium and/or Manual to you. We strongly recommend that you send your product using a traceable delivery method. Electronic Arts is not responsible for products not in its possession.
